Das Electricals is a team of Electrical Engineers who have years of credible experience in Solar power systems. Our aim is to deliver the world's most reliable and cost-effective solar energy solutions to our clients. We are Authorized Channel Partner for several National Brands for Solar Solutions Providing. We provide Consulting, Engineering, Contracting, Erection, Commissioning and Technical Support to a wide spectrum of clients ranging from households to corporate giants.

**SOLAR POWER SYSTEMS**  
**FROM 1KW**  
**TO 60KW**  
**CALL US NOW**

**We offer - Take the advantage of renewable energy**

### On-Grid Solar System

On-Grid Solar systems that only generate power when the utility power grid is available. They must connect to the grid to function. They can send excess power generated back to the grid when you are overproducing so you credit it for later use.

### Off-Grid Solar System

Off-Grid Solar systems allows you to store your solar power in batteries for use when the power grid goes down or if you are not on the grid. These provide power to offset the grid power whenever the sun is shining and will even send excess power to the grid for credit for later use.

**We provide engineering, permitting and installation all under one roof.**

### Solution for Home & Business

| Model | PV* Capacity | PCU* Capacity | Generation** Per Day |
|-------|--------------|---------------|----------------------|
| 1KW   | 1280W        | 1KW           | 4-5.5 Units          |
| 3KW   | 3200W        | 3KW           | 12-16.5 Units        |
| 5KW   | 5120W        | 5KW           | 20-27.5 Units        |
| 7.5KW | 7680W        | 7.5KW         | 30-41 Units          |
| 10KW  | 10240W       | 10KW          | 40-55.5 Units        |
| 15KW  | 15360W       | 15KW          | 60-82.5 Units        |
| 20KW  | 19840W       | 20KW          | 80-110 Units         |

**We are dealing with all National Brands for Solar Solutions Providing.**

\* PV Capacity & PCU Capacity may vary according to manufacturers. \*\* Generation per day may depend upon the availability of sunlight.
